

FRANCISCO GAETANO

Buenos Aires, Argentina | 27 years old | franciscogaetano1@gmail.com | +54 9 11 6051 8335 | franciscogaetano.com | github.com/gaetanof

ABOUT ME

Product Expert with strong technical understanding of SaaS platforms and modern web technologies. I work closely with engineering teams and customers to troubleshoot complex integrations, analyze authentication flows, and support product implementations.

Alongside my product work, I build web applications and APIs using JavaScript technologies, which allows me to understand systems at both the product and code level. I enjoy bridging the gap between product, engineering, and users to build better software.

WORK EXPERIENCE

Product Expert – Support Your App | Apr 2024 – Present

- Provide advanced technical support for a SaaS identity and user management platform (Frontegg).
- Investigate and troubleshoot authentication flows, OAuth integrations, APIs, and webhook-based systems.
- Work closely with engineering teams to diagnose issues related to SDKs, tokens, permissions, and tenant management.
- Analyze technical logs, trace IDs, and API responses to identify root causes of complex integration issues.
- Support customers implementing authentication flows, SSO integrations, and custom identity workflows.
- Propose improvements to internal workflows and documentation to improve developer experience.
- Troubleshoot authentication systems including OAuth, JWT tokens, SSO integrations, and identity workflows.

IT Consulting Analyst, Data Analyst & Team Lead – Deloitte | Apr 2022 – Apr 2024

- Worked on data and integration projects for enterprise clients using ETL tools and SQL.
- Designed and implemented data pipelines to support reporting and operational workflows.
- Led the development lifecycle of data interfaces and implemented performance optimizations.
- Coordinated cross-functional teams and supported onboarding and training of new hires.
- Built analytical queries and validation scripts to ensure data quality in production environments.

TECHNICAL PROJECTS

Freelance Web Developer | 2023 – Present

Develop personal and freelance projects focused on modern JavaScript web applications. More info available at: franciscogaetano.com

EDUCATION

Digital House – Full Stack Web Developer (2023)

University of Buenos Aires – Bachelor's Degree in Accounting (2017–2021)
